Profile

Dedicated web designer with 6 months of intensive training and 2+ years of hands-on experience in crafting visually stunning and user-centric websites. Transitioned to a React.js developer role, honing skills for 1.5+ years. Proficient in UI/UX design and front-end development, passionate about creating exceptional digital experiences.

Education

- **Vinoba Bhave University** — Hazaribagh, Jharkhand.
  Bachelor of Commerce — 2015 - 2018

Work Experience

- **EightTech Projects** — Full Time
  React JS Developer — April 2022 to Present
  - Designed and developed responsive websites using HTML, CSS, JavaScript, and React Js.
  - Collaborated with cross-functional teams to understand and implement design requirements.
  - Integrated APIs to fetch and display dynamic content, enhancing user engagement.
  - Manage client relationships and collaborated with clients to understand their business needs and design.
  - Optimized website performance and user experience through A/B testing and usability testing.
  - Assisted in front-end development tasks, including HTML, CSS, JavaScript, and react coding.

- **Earth Technology Private Limited** — Full Time
  Web Designer — Feb 2020 to Mar 2022
  - Designed and developed responsive and intuitive websites for clients across various industries.
  - Translated wireframes and mockups into HTML, CSS, and JavaScript code, ensuring seamless user experiences.
  - Managed client relationships and collaborated with clients to understand their business needs and design.
  - Created visual assets for websites using Adobe Photoshop, Illustrator, Figma, and Canva.
  - Collaborated with developers to ensure design feasibility and seamless integration of front-end and back-end technologies.
  - Contributed to design system development, improving design consistency and efficiency across projects.

- **PHP Training Kolkata** — Full Time
  Web Development Training — Sep 2019 to Jan 2020
  - I learned how to structure web content, create forms, and use semantic markup to build accessible web pages.
  - I gained proficiency in styling web pages, understanding the box model, and implementing responsive design principles.
  - Created a responsive website from scratch using HTML and CSS, focusing on user-centered design.
  - Developed interactive web applications using JavaScript to enhance user engagement.

Projects

- **Netflix clone custom** June 2023
  - This is a React-based Netflix clone that empowers users to explore content in a personalized manner. The application features multi-language support (English and Hindi), seamless user authentication, including login, sign-up, and password recovery. Additionally, users can access a vast library of movies, view trailers, and enhance their entertainment experience.
  - **Tech:** React, React Router, i18n Translation, Firebase.
  - **Link:** https://netflix-clone-custom.netlify.app/

- **Portfolio** May 2023
  - Designed and developed a personal portfolio website showcasing an intuitive Google-inspired search display, presenting content sourced from JSON format. Skillfully implemented a 'Contact Us' page featuring seamless communication through EmailJS, ensuring efficient user interaction and inquiry capture. The portfolio is hosted on Netlify for seamless accessibility.
  - **Tech:** React, React Router, EmailJS.
  - **Link:** https://rahul-kumar-sahu-portfolio.netlify.app/

- **Feedback App** Mar 2023
  - This is a Feedback application. The app facilitates user-friendly feedback submission, deletion, and offers grid, list, and chart view options for efficient feedback review. Implemented static data presentation via JSON. Leveraged React and React Redux for seamless data management. Successfully deployed the app on Vercel for widespread accessibility.
  - **Tech:** React, React Router, React-Redux.
  - **Link:** https://feedback-app-henna-six.vercel.app/

- **Human Resources Management System** Sep 2022
  - Human Resource Management involves overseeing employees, handling leaves, report submissions, task assignments, and summarizing tasks. It ensures efficient workforce management, streamlined operations, and effective communication within the organization.
  - **Tech:** HTML, CSS, javaScript.
  - **Link:** https://eighttechprojects.com/ethrm/

- **EightTech Projects** Aug 2022
  - EightTech Projects is a cutting-edge company specializing in Web and Mobile App Development. They offer innovative solutions across diverse industries and technology platforms, delivering next-generation solutions that cater to clients' unique needs and preferences.
  - **Tech:** HTML, CSS, javaScript.
  - **Link:** https://eighttechprojects.com/

- **Capknow technologies pvt ltd.** April 2022
  - CapKnow Technologies is a Startup owns CapknowOnline.com, India's first SaaS based "Geo-enabled web & mobile integrated online knowledge capturing platform" Using Innovative Technologies like GIS, AR (Augmented Reality) and VR (Virtual Reality), Machine learning, & AI (Artificial Intelligence).
  - **Tech:** HTML, CSS, javaScript.
  - **Link:** https://capknow.com/

Certifications

- **Front End Development Libraries** 🔗 freeCodeCamp
  (React, Redux, React and Redux, Saas, jQuery, Bootstrap) 2023

- **React - The Complete Guide with React Hook Redux** 🔗 Udemy
