Email: rs9097737511@gmail.com

Mobile: +919097737511

Location: Bagodar, Jharkhand - 825322.

Profile

Full Stack Developer with expertise in React.js, Next.js, Express, NestJS and PostgreSQL. Skilled in building high-quality full-stack applications, mentoring teams, improving code quality, and delivering projects on time using Agile practices.

Experience

EDGEMATICS GROUP | SENIOR FRONTEND DEVELOPER | FEBRUARY 2025 – PRESENT

- Built and optimized interactive front-end interfaces using Next.js, TypeScript, and Material-UI (MUI).
- Integrated 15+ RESTful APIs and third-party libraries, improving data flow efficiency between front-end and microservice backends, which reduced response latency by 25% and enhanced system reliability.
- Participated in micro-frontend architecture, enabling modular and scalable code across services.

Achievements:

- Edgematican of the quarter

CODES FOR TOMORROW | SOFTWARE DEVELOPER | OCTOBER 2023 – JANUARY 2025

- Designed and developed scalable full-stack applications using React.js for frontend and NestJS for backend services.
- Built dynamic dashboards using React.js and Redux for efficient state management.
- Developed and integrated RESTful APIs using NestJS following modular architecture and best practices.
- Designed and managed relational databases using PostgreSQL, including schema design, and query optimization.

Achievements:

- Employee of the month

EIGHTTECH PROJECTS | REACT JS DEVELOPER | APRIL 2022 – SEPTEMBER 2023

- Developed 40+ reusable UI components in React.js and Angular, enhancing code maintainability and reducing development time for new features by 30%.
- I worked on SaaS-based projects, building scalable and maintainable front-end solutions.
- Manage client relationships and collaborate with clients to understand their business needs and design.
- Optimized website performance and user experience through A/B testing and usability testing.

EARTH TECHNOLOGY PVT LTD | WEB DEVELOPER | FEBRUARY 2020 – MARCH 2022

- Designed and developed responsive and intuitive websites for clients across various industries.
- Translated wireframes and mock-ups into HTML, CSS, and JavaScript code, ensuring seamless user experiences.
- Collaborated with developers to ensure design feasibility and seamless integration of front-end and back-end technologies.
- Self-learned **React.js** and **Angular**, applying them to real-world projects to enhance application performance and user experience.

PHP TRAINING KOLKATA | WEB DEVELOPER TRAINING | AUGUST 2019 – JANUARY 2020

- Learned to structure web content, create forms, and use semantic markup to build accessible web pages.
- Gained proficiency in styling web pages, understanding the box model, and implementing responsive design principles.
- Created a responsive website from scratch using HTML and CSS, focusing on user-centered design.
- Learned the fundamentals of PHP to build dynamic and server-side web applications.

Technical Skills & Abilities

- Proficient in React.js, Next.js, React Native
- Experienced with Redux, Context API, RESTful APIs, Web3.js
- Knowledge of Node.js, Express.js, SQL, MySQL and NestJS
- Proficient in using Git, GitHub, and Agile/Scrum.
- Ability to mentor juniors and lead team
- Strong in JavaScript, TypeScript, HTML5, CSS3
- Skilled in Bootstrap, Tailwind, Material UI, PWA
- Skilled in building and consuming **RESTful APIs**
- Adept at problem-solving and optimization

Projects

AXOMA

- Axoma.ai is an Agentic AI platform where users can create intelligent agents that connect with multiple tools like Jira and Outlook to perform automated actions. It enables users to design workflows, automate business tasks, and schedule processes seamlessly, helping teams improve productivity and streamline operations with AI-driven automation.
Tech: Next.js, MUI, SSE, Redux.

VOTTCOIN

- Vottcoin is a dynamic web application designed for engaging users in the voting process. It allows users to vote for their favorite politicians, earn coins as rewards, refer friends to the platform, and purchase campaigns. Additionally, Vottcoin integrates with TON Wallet, enabling users to connect their wallets seamlessly. This project emphasizes user interaction and incentivizes participation in the political process through a gamified approach.
Tech: React.js, Tailwind, Blockchain, Node.js, Express.js.

USDfC

- Utilized the USDfC platform to enable seamless multi-currency transactions (INR, AED, USD). Proficient in navigating the platform's features to execute transactions efficiently. Additionally, adept at exploring partnership opportunities within the platform to generate profitable outcomes.
Tech: React.js, Tailwind, Blockchain, Node.js, Nest.js.

VERSLAN

- Experienced in utilizing Verslan, a Blockchain-based trading platform for Real World Assets (RWA) transactions. Skilled in executing trades efficiently and securely, contributing to operational excellence.
Tech: React.js, Webpack, Tailwind, Blockchain, Node.js, Nest.js.

Certification

- [React - The Complete Guide with React Hook Redux](#)
- [React native Expo for multiplatform mobile app](#)
- [Docker Course from Basics to Advanced](#)
- [Python Programming Complete Beginners Course](#)
- [Legacy JavaScript Algorithms and Data Structures](#)
- [Front End Development Libraries.](#)
- [Responsive Web design](#)
- [Prompt Design in Vertex AI Skill Badge](#)

Education

- Bachelor of Commerce | Vinoba Bhave University, Hazaribagh, Jharkhand. | 2015 – 2018
